PROFESSIONAL SUMMARY

Product Designer with 4.5+ years of experience designing fintech and investment products across Motilal Oswal and Trinkerr. I lead ambiguous, high-impact initiatives from problem framing to launch, including 0-to-1 product discovery, hyper-personalisation, AI-assisted investing, and scalable design systems. Known for simplifying dense financial workflows, aligning product, engineering, and compliance, and connecting design decisions to user and business outcomes.

PROFESSIONAL EXPERIENCE

Assistant Manager, Product Design

Aug 2025 - Present

[Motilal Oswal Financial Services](#) | Mumbai, India

- Lead product design across Riise initiatives spanning homepage personalisation, stock discovery, AI-assisted investing, and scalable platform experiences.
- Re-architected the homepage to prioritise relevant financial products using behaviour, lifecycle, and portfolio signals, reducing structural complexity and strengthening discoverability.
- Led the 0-to-1 product definition of Screener across discovery, filters, comparison, saved workflows, and AI-assisted decisions from concept through developer handoff.
- Shape Mira AI as a unified layer across support, research, portfolio analysis, market briefs, and actionable recommendations while partnering with product, engineering, and compliance.

Product Designer

Feb 2023 - Apr 2025

[Trinkerr](#) | Bengaluru, India

- Turned portfolio import into an insight-led Portfolio Health Report, contributing to a 9x increase in imports after launch; a demo report contributed a further 1.2x lift.
- Designed data-rich portfolio and advisory experiences covering performance, valuation, risk, allocation, red flags, entry, exit, and stop-loss information.
- Contributed to TIQS 2.0 across tokens, reusable components, accessibility, documentation, and design-engineering alignment for iOS and Android.

Associate Product Designer

Jan 2022 - Feb 2023

[Trinkerr](#) | Bengaluru, India

- Owned foundational investing experiences across portfolio tracking, watchlists, stock details, and transaction flows for mobile users.
- Used user interviews, usability testing, heuristic reviews, and close developer collaboration to simplify complex information and improve cross-platform consistency.
